

## ZeroTP minis

### In Short

- ZeroTP minis are a Food for Special Medical Purposes (FSMP) for use in the dietary management of Tyrosinemia or Alkaptonuria
- in tablet form – coated
- suitable from 3 years of age
- highly concentrated protein supplement free of Tyrosine and Phenylalanine (TP)
- highly purified L-amino acids
- with vitamins, minerals and trace elements
- low in calories: no carbohydrate – small amount of fat
- easy to swallow – ready to use – ideal also for “ready to go”
- neutral in smell and taste
- in convenient sachets: 1 sachet  $\cong$  12 tablets  $\cong$  5 g protein equivalent

### Amino acids

ZeroTP minis	100 g	8,4 g/ 12 tab./ 1 sachet
L-Alanine	8	5,1
L-Arginine	8	3,0
L-Aspartic acid	8	8,7
L-Cystine	8	1,6
L-Glutamine	8	2,3
L-Glutamic acid	8	6,3
Glycine	8	5,4
L-Histidine	8	1,6
L-Isoleucine	8	3,7
L-Leucine	8	5,9
L-Lysine	8	4,9
L-Methionine	8	1,7
L-Phenylalanine	8	–
L-Proline	8	6,7
L-Serine	8	3,6
L-Threonine	8	3,7
L-Tryptophan	8	1,5
L-Tyrosine	8	–
L-Valine	8	5,5

### Product Profile

ZeroTP minis are a highly concentrated mixture of highly purified L-amino acids free of Tyrosine and Phenylalanine (TP) in tablet form.

ZeroTP minis do not contain carbohydrate and only a small amount of fat, thus low in calories.

ZeroTP minis are a pressed and coated protein supplement.

ZeroTP minis allow a tasteless intake of the amino acid mixture.

The tablets can be consumed discreetly and directly, no preparation necessary. They offer more flexibility, e.g. concerning intake outside the home and with regard to a wider choice of drinks suitable for intake, without drawing attention to the diet – a big plus with regard to good compliance. Since packed in sachets the daily taking is especially easy:

1 sachet  $\cong$  12 tablets  $\cong$  5 g protein eqv.

ZeroTP minis are supplemented with vitamins, minerals and trace elements.

Suitable from 3 years of age onwards.

### Intake

The tablets should be swallowed unchewed as whole tablets. ZeroTP minis should always be taken with a sufficient quantity of liquid. The tablets are not intended to be dissolved in water or other drinks prior to intake. ZeroTP minis are not meant to dissolve in the mouth.

We recommend to take the tablets in an upright position.

Once sachet is opened, the tablets should be taken within the next 6 hours.

ZeroTP minis are coated with a flavour- and odour-neutral layer – therefore they do not produce an unpleasant aftertaste or breath malodour and there is no annoying belching.

Thanks to their protective coating the tablets are easy to swallow. This coating is extremely thin and water-soluble. If it were to dissolve, the tablets would taste like a typical amino acid mixture.

ZeroTP minis are tooth-friendly. Intake of the coated tablets with water (including mineral water) contributes to oral hygiene and helps prevent possible tooth damage caused by caries.

**Dosage** The daily total amount of amino acid mixture depends on age, body weight and individual medical condition/protein tolerance and should be re-examined and adjusted in accordance with the results of regular monitoring. The daily dosage of amino acid mixture should at best be divided into 3 – 5 single portions.

ZeroTP minis can be combined with other products from the ZeroTP-system. The diet must be supplemented with energy, natural protein and other nutrients in prescribed quantities.

**Important Notice** Must only be used under medical supervision. Not for use as a sole source of nutrition. For enteral use only. Only for people with proven Tyrosinemia or Alkaptonuria. Suitable from 3 years of age.

### Convenience Product

ZeroTP minis are a convenient option for the intake of an amino acid mixture, also when on the way: discreetly, in tablet form.

### Administration

ZeroTP minis should always be taken with a sufficient quantity of liquid and at best along with precalculated amounts of food.

**Function** ZeroTP minis substitute that part of the protein in the diet which may not be taken up from natural food sources.

**Indication** ZeroTP minis are a food for special medical purposes and as protein supplement suitable for the dietary management of Tyrosinemia or Alkaptonuria.
